**Betreff:** Fw: Negus aus Wattenscheid

Dear Mr. Kober.

I think you will be suprised to hear about me.

About 3,5 years ago i bought Negus from somebody out Gouda.

It was a match at first sight.

At this moment Negus (I call him Waldi) is almost 5 years old, and we are still very happy together.

The reason i am mailing you is to tell you a very special story about my dog, that was born in your house, and i believe even named after a family member of you.

About 1 year ago Negus (Waldi) defenitly saved my life, without him i would be dead!!!

During our evening walk i suddenly experienced a hart faillure, at that moment Negus left me to run to my parents house to warn my father. When my father opened the frontdoor, Negus runs back to the place i was laying with a serieus heart problem. So according to the hospital i thank my life to my dog due to his sudden. super fast and definitiv action.

At this moment (about 1 year later) i am just back from a third heart operation, and still living with Negus.

His caracter has a little bit changed, he is less playfull (he still plays ofcourse) but now he watches over me, and is very carefull with me.

He sleeps the last year next to my bed.

I thank you, although you never knew about his caracter, for breeding this dog, (he is my best friend)

I hope to outlive him, and if so, i would like to find another German Sheppard from your kennel.

I also attach 2 pictures of Negus to this e-mail so that you can see hem.

Thanks for breeding such fine dogs!!!!

Kind regards

Germt van Rijswijk
